OBJECTIVE

”Crafting stunning mobile development experiences with Java and Kotlin magic — Expert in Android Application development , database connectivity — Mastering Spring , JDBC , MySQL , REST API , Firebase — Interning and shaping brilliance in React native”

EDUCATION

Master of Computer Application (Uka Tarsadia Uninversity)   2024-2025
Relevant Coursework : Android App Development , Java, MERN Stack

Bachelor of Computer Application, VNSGU   2021- 2024
Relevant Coursework: Web Development (HTML, CSS, JavaScript, Java, C, C++, Python)

Higher Secondary Education (12th), P.H.Bachhakaniwala Vidhyamandir   2019- 2020
Relevant Subjects: (Physics, Chemistry, Maths, Computer)

SKILLS

Technical Skills	App Development with Java , MySQL ,Laravel
Soft Skills	Communication, Collaboration, Adaptability, Problem-solving
Other Skills	Leadership, Time Management, Emotional Intelligence, Creativity

PROJECTS

Farm Management System (कृषि प्रधान) :Our platform facilitates direct selling and purchasing of farm products and equipment, revolutionizing the agricultural industry. Through features like product posting, equipment rental, and weather forecasting, farmers can make informed decisions and optimize their operations. Additionally, our app provides invaluable resources such as crop disease identification and prevention, financial transaction tracking, and access to expert advice.

EXTRA-CURRICULAR ACTIVITIES

- Lead coding workshops and hackathons to promote learning and collaboration.

- Contribute to open-source projects on GitHub, improving frontend development practices.
